Round Wood-fired Tubs

Price List

Sep/2015

All of the tubs offered below are constructed in the classic hoop and stave style from 8/4 vertical grain clear Western Red Cedar milled to a 1 3/4" net thickness. The tubs are bound and fastened with recessed marine grade stainless steel tensioning bands and fittings. Our traditional natural cedar tubs are only available fully assembled and ready for installation. Within New England, tubs are delivered direct from the factory; outside New England, tubs are crated and shipped by common carrier.

Included in the price quoted for each tub is: circumferential seating, a recessed stainless steel drain fitting, and it's listed submersible stove complete with an integral heat shield, and an ash shovel.

<u>Tub Size</u>	<u>Stove Size</u>	<u>Item #</u>	<u>Assembled Tubs</u>
5 ft diameter x 3.0 ft depth	25	536W25A	\$4460.
5 ft diameter x 3.5 ft depth	25	542W25A	\$4600.
5 ft diameter x 4.0 ft depth	25	548W25A	\$4690.
6 ft diameter x 3.0 ft depth	25	636W25A	\$5300.
6 ft diameter x 3.5 ft depth	25	642W25A	\$5396.
6 ft diameter x 4.0 ft depth	25	648W25A	\$5485.
6 ft diameter x 3.0 ft depth	35	636W35A	\$5610.
6 ft diameter x 3.5 ft depth	35	642W35A	\$5706.
6 ft diameter x 4.0 ft depth	35	648W35A	\$5795.
7 ft diameter x 3.0 ft depth	35	736W35A	\$6445.
7 ft diameter x 3.5 ft depth	35	742W35A	\$6585.
7 ft diameter x 4.0 ft depth	35	748W35A	\$6715.

Wood-fired Tub Covers (Our covers are UL and ASTM approved, and are equipped with locking safety fasteners)

Model 525 Insulated Cover (fits all 5 ft diameter tubs equipped with Model 25 wood stove)	\$ 314.00
Model 625 Insulated Cover (fits all 6 ft diameter tubs equipped with Model 25 wood stove)	\$ 320.00
Model 635 Insulated Cover (fits all 6 ft diameter tubs equipped with Model 35 wood stove)	\$ 330.00
Model 735 Insulated Cover (fits all 7 ft diameter tubs equipped with Model 35 wood stove)	\$ 344.00

***Submersible Filter Package** \$ 286.00
(A submersible pump/cartridge filter combination that can be submerged in your tub to provide water circulation and filtration. No plumbing is required. Ideal for wood-fired tubs subjected to freezing temperatures. Operates on 120V.A.C.)

Filter Timer \$ 41.75
(Programmable time clock will provide two remotely actuated filter cycles during a 24 hr. period For use with the submersible filter package offered above 120 V.A.C.)

***Submersible Anti-icing Heater** \$ 55.80
(This submersible heater is thermostatically controlled and will keep a covered tub from freezing. The unit will automatically activate at 40 degrees F. 120 V.A. C. is required)

***Submersible electrical devices should only be connected to G.F.I. outlets and should be removed from the tub or disconnected while people are using the tub.**
